- The "Delivery" or "Transit" norms denote number of days taken from the date of booking to the date of delivery for a Speed Post article. The specific norms for 87 cities shown in the table above are applicable only within municipal limits of these cities. "Local" articles refer to the articles booked and to be delivered within the municipal limits of a city / town.
- They do not apply to the articles booked after the cut off time on a day (normally 3 or 4 pm for booking counters at post offices) and an extra day may be added in such cases.
- The delivery norms do not include Sundays and holidays.
- Delay occurring due to curfew, bandh or strike in a particular city may adversely affect delivery norms. Delay occurring due to cancellation of flights/trains/buses/other means of transport for carriage of mail or off-loading/non-carriage of mail by the carriers due to any reason is beyond the control of the Department, and therefore, the same may adversely affect delivery norms.
